NHS

Dear

Annabella Pearce and Amy Harbour are hosting a children's educational day in both Fareham and Gosport. This day involves educating and empowering children to understand the science and theory behind Multiple Sclerosis allowing them to understand why their parents are experiencing a variety of symptoms. We will be teaching with advice from Digesting Science. Digesting Science has created a set of educational activities that teach children aged 6-12 years old. These activities were co-designed with Barts institute MS researchers, clinicians and nurses, families with Multiple Sclerosis, designers and a drama teacher.

We have 2 dates so far:

- 1. 11th March at the Titchfield Community Centre, PO14 4AB 13.30-16.30**
- 2. 8th April at St. Francis Church, Alverstoke, PO12 2AX 14.30-17.00**

This will be a first come first serve basis. To ensure your place please reply to this letter at the address, email or telephone number above.

Apologies if this letter does not apply to you.

If I can provide any further information, then please do not hesitate to contact me at the above address.

Yours sincerely

**Annabella Pearce
MS Nurse Specialist.**

**Amy Harbour
MS Nurse.**
