18 December 2017

Dear Mr McAleese

Thank you so much for your generous donation of £10,000.00.

Please pass on our grateful thanks to the committee and to your members.

As requested the donation will be allocated towards MS research, split between Simvastatin, Bexarotene and MS-SMART.

We are the major funder for research in the UK, currently supporting around 80 projects. We focus on both helping people cope with their symptoms e.g. fatigue, as well as exploring root causes of the condition.

We also have an active network of over 350 people who ensure our programme, in addition to being of the highest scientific quality, meets the needs of those living with MS.

We know the difficult decisions branches make when allocating resources and finding the right balance between provisions for local services and important national projects.

We are therefore delighted that you are able to do both and acknowledgement of your wonderful gift will appear very soon in Teamspirit.

Once again thank you so much.

Together we are strong enough to stop MS.

A handwritten signature in black ink that reads 'Rachel Doughty'.
