

The MS Nurse for the Gosport and Fareham Team area is **Annabella Pearce.**

I am married with a 2 sons and live locally. I enjoy water sports, especially kayaking and especially love spending time with my family. After qualifying I worked initially in the Wessex Neurological Centre for 3 ½ years. Whilst there I completed a specialist neurological degree and rotated across all departments.

Following this I moved to the Southampton City PCT as a staff nurse where I completed my District Nurse training, leading to my previous post as a District Nurse within the Hampshire Community Health. I also completed my Masters Degree in May 2011. I have both a professional and personal interest in Multiple Sclerosis and looking forward to taking on this new role, providing MS patients with the necessary advice and support to manage their care.
